

Original

Ground truth: standard poodle
R50: standard poodle

N = 2048 complex uses
P / Dc; train seed 2026092304

PSNR 23.00 dB | LPIPS 0.127 | DINOv2-L 0.879
R50: standard poodle (same as original)

N = 3060 complex uses
P / Dc; train seed 2026092304

PSNR 24.38 dB | LPIPS 0.089 | DINOv2-L 0.902
R50: standard poodle (same as original)

N = 4084 complex uses
P / Dc; train seed 2026092304

PSNR 25.33 dB | LPIPS 0.070 | DINOv2-L 0.923
R50: standard poodle (same as original)

Digital raw / Dc
Paid true class
Legacy protocol

Class agreement is conditioned on a transmitted true label.

PSNR 19.24 dB | LPIPS 0.188 | DINOv2-L 0.792
R50: standard poodle (same as original)

PSNR 20.72 dB | LPIPS 0.158 | DINOv2-L 0.857
R50: standard poodle (same as original)

PSNR 20.72 dB | LPIPS 0.158 | DINOv2-L 0.857
R50: standard poodle (same as original)

Digital arithmetic / Dc
Paid true class
Legacy protocol

Class agreement is conditioned on a transmitted true label.

PSNR 19.24 dB | LPIPS 0.188 | DINOv2-L 0.792
R50: standard poodle (same as original)

PSNR 20.72 dB | LPIPS 0.158 | DINOv2-L 0.857
R50: standard poodle (same as original)

PSNR 23.34 dB | LPIPS 0.114 | DINOv2-L 0.900
R50: standard poodle (same as original)

Legacy raw / D0
Paid true class
Older protocol

Class agreement is conditioned on a transmitted true label.

No measured point

PSNR 20.18 dB | LPIPS 0.169 | DINOv2-L 0.895
R50: standard poodle (same as original)

No measured point

Legacy arithmetic / D0
Paid true class
Older protocol

Class agreement is conditioned on a transmitted true label.

No measured point

PSNR 20.18 dB | LPIPS 0.169 | DINOv2-L 0.895
R50: standard poodle (same as original)

No measured point

Digital rows use paid true class; they are not the current unconditional digital chain.
D0 and Dc use different decoders. Protocol changes limit causal conclusions about bandwidth.
Display PNGs are resized; all shown metrics were measured on original float RGB. Missing points remain blank.
